## Annexure 2-B

## Summary Sheet: Sub-Project 2 : TechClubs - Costing Sheet

| Sr. No.    | Particulars                                        | Total Cost     |
|------------|----------------------------------------------------|----------------|
| <b>i</b>   | <b>Biodegradable Films &amp; Coatings - CAPEX</b>  |                |
| 1          | homogenizer                                        | 194051         |
| 2          | Refractometer                                      | 1142040        |
| 3          | Humidity Chamber                                   | 319780         |
|            | <b>Sub-total : A</b>                               | <b>1655871</b> |
| <b>ii</b>  | <b>Inline Thickness Measurement Device - CAPEX</b> |                |
| 1          | Cast Iron components                               | 5000           |
| 2          | 3D Printed Parts(500 gms)                          | 10000          |
| 3          | Hemispherical Camera                               | 64076          |
| 4          | Storage                                            | 5000           |
| 5          | Hall Sensor(2)                                     | 1942           |
| 6          | Pressure Sensor(2)                                 | 1674           |
| 7          | Springs(10)                                        | 5000           |
| 8          | Linear Actuator                                    | 5000           |
| 9          | Microcontroller(8-10)                              | 15000          |
| 10         | Wheel(6)                                           | 4000           |
| 11         | Strain Gauge Sensor(6)                             | 3600           |
|            | <b>Sub-total : B</b>                               | <b>120292</b>  |
| <b>iii</b> | <b>Glass-wear with Display - CAPEX</b>             |                |
| 1          | Raspberry Pi(2)                                    | 17498          |
| 2          | OLED Display(2)                                    | 2998           |
| 3          | Stereo Camera(2)                                   | 9598           |
| 4          | UPS Hat(2)                                         | 10598          |
| 5          | Battery(2)                                         | 1090           |
| 6          | Microphone(2)                                      | 584            |
| 7          | Plano Convex Lens(2)                               | 5000           |
| 8          | Mirror                                             | 3300           |
| 9          | Microscoping slides(4)                             | 5420           |
| 10         | LangChain AI                                       | 39024          |
| 11         | 3D Printing                                        | 5000           |
